

Magellan Behavioral Health of Pennsylvania, Inc. (Magellan of PA) learned on Dec. 22, 2016 that the Cambria County Behavioral Health/Intellectual Disabilities and Early Intervention Program chose our company as their new HealthChoices MCO Partner for behavioral health, effective July 1, 2017. We are excited to add Cambria County to our Magellan of PA family that currently includes Bucks, Delaware, Lehigh, Montgomery and Northampton counties.

For 20 years, Magellan of PA has been working with stakeholders to provide behavioral health services for HealthChoices members. During this time, Magellan of PA has supported members by working closely with individuals and families; providers; County partners; and local communities – to ensure the delivery of high-quality, accessible healthcare to more than 384,000 residents of Pennsylvania each year.

The Cambria County office, staffed with local Magellan employees, will include an Executive Director and staff in program areas including: Clinical, Medical, QI, Compliance, Network, Finance, and Member Services.

We will share additional relevant information as we near the launch date of July 1 for the Cambria County HealthChoices contract.

Sincerely,

Matthew Miller
VP, Operations and Interim CEO, Magellan Cambria County
Magellan Healthcare Division
