

MISSION STATEMENT

Magellan Behavioral Health of Pennsylvania is committed to ensuring the delivery of high-quality behavioral health care to help individuals and families achieve their goals. We partner with local counties, providers, members, families and other stakeholders to ensure a system of care based on innovation, clinical excellence and a philosophy of wellness that focuses on discovering personal strengths, building hope and offering choices. Together, we facilitate and accelerate transformation of the behavioral health system, supporting individuals and families on their journey toward recovery, building resilience in their lives and securing a healthier future.
