

We are excited to ‘Go-Live’ as the new HealthChoices MCO for Cambria County

A message from Diane Marciano, VP, General Manager, Lehigh Valley Care Management Center, and James Leonard, VP, General Manager, Newtown Care Management Center

Cambria County, located in western Pennsylvania, recently chose Magellan as its new HealthChoices MCO partner for behavioral health, effective July 1, 2017. We look forward to adding Cambria County to our Magellan Behavioral Health of Pennsylvania family. Our new Cambria County Care Management Center is located in Johnstown, and we have a great team of new employees ready to manage this contract.

New opportunity

Our contract in Cambria County is exciting for a number of reasons. First, we are enjoying the ongoing relationship-building process with key stakeholders and behavioral health providers locally. We are confident that Magellan’s objectives align with the county’s goals, and we believe that this new relationship will create innovative and quality-focused opportunities for the HealthChoices members requiring behavioral health services.

Second, during the past two decades we have appreciated the opportunity to develop best practices of care together with HealthChoices administrators in Bucks, Delaware, Lehigh, Montgomery and Northampton counties. This collaborative approach will continue with each county as we include Cambria County administration in our team approach, when regionally appropriate.

Finally, our team members at Magellan wake up each day with the goal to help individuals live healthier, more vibrant lives. We take this mission quite seriously, and we are excited to know that our company will collectively be able to help an increased number of Pennsylvania residents with the addition of this contract.

Additional information

We have hired Tracy Shultz to lead us locally in Johnstown as the CEO and operations director. Should you have any questions related to Cambria County operations, please do not hesitate to reach out to her at tshultz@magellanhealth.com.

Our website has important information related to Cambria County that includes member and provider materials, an FAQ document, email addresses for member and provider-related questions and additional helpful resources.
