

Magellan's Children's Intensive Treatment Team makes a difference with Big Brothers/Big Sisters of Bucks County

Magellan Health, Inc. shares a philosophy with its employees across the country to give back locally and to create community engagement opportunities that have a purpose. This culture of caring led to the company providing each full-time employee with an 8-hour Volunteer Time Off (VTO) benefit in 2017 to encourage its employees to volunteer for a local non-profit of their choice, and still receive a full day's pay.

On July 6, the Children's Intensive Treatment Team of Magellan Behavioral Health of Pennsylvania under the enthusiastic leadership of Maria Brachelli-Pigeon, manager of clinical care services, put this mission into action. The team of fourteen employees used their full VTO benefit to help the local chapter of Big Brothers/Big Sisters of Bucks County with a painting project of their office. As the pictures below illustrate, the team worked hard and had smiles throughout the event. In fact, employees have continued to reflect on how much enjoyment they had as a team, and the thank you note from Big Brothers/Big Sisters shows this sentiment was shared by their employees as well.

Dear Magellan Healthcare Team,

Thank you so much for coming to
the offices of Big Brothers Big Sisters of Buck County
to beautify our work environment! Staff were
so happy to return to a much more bright,
cheerful and fresh work space! We have had
other groups come in for various projects but your
enthusiasm was unmatched. Thank you again
from all of us! ~ Erin

I love our new space! Thank you
for your hard work! Crystal

THANK YOU!
IT IS SO BEAUTIFUL!
Love the blue!
