

Alternative Payment Arrangements Update

The last communication that came out in January provided a schedule of Gap payments through 6/30/2022. Magellan will be extending these Gap payments through December 2022. As a reminder, Gap payments are calculated by total revenue at the Tax Identification (TIN) level for service month compared to your current APA amount which was based on your 2019 reimbursement average plus 4%. If revenue for service month is less than then that, a Gap payment will be made for the difference. If your fee for service (FFS) claims are above that average, you will not receive a Gap payment. Please continue to monitor your fee for service claims and work any denials as quickly as possible.

Service Month – **July 2022**

Magellan Finance Review – Initiated August 31st.

Gap Payment – Week of Sept 12th check runs for each County
