First Episode Psychosis Bucks County Informational Session

September 29 @ 10:00-11:00am

What is On My Way (OMW)?

OMW is a coordinated specialty care approach to treating young people who have recently experienced their first episode of psychosis. The OMW team offers young people an array of services, including low-dose medication management, cognitive behavioral treatment for psychosis, family education, case management, supported education and employment, and peer support services. Service coordination is guided by the young person's voice and choice. OMW seeks to improve the quality of life of young people by instilling hope through empowerment to guide their own treatment, educating them about their psychosis, re-establishing relationships, and re-integrating them into the community whether to attending school or working.

Event Speakers

Dr. Siegler is the Psychologist Advisor for Magellan Behavioral Health of PA. He provides consultation to the care management team reviews of community-based service requests and supports children's service providers striving to provide effective and accountable treatment services to the individuals and families they serve. Dr. Siegler has extensive experience providing consultation services in educational, psychiatric, and forensic settings. He has provided staff training to behavioral health providers on a variety of topics related to clinical excellence and clinical accountability. Prior to joining Magellan, Dr. Siegler has held clinical leadership positions in psychiatric inpatient, psychiatric residential treatment, extended acute care, intensive behavioral health services, and outpatient settings.

Daniel Fisher is a Programs Director at Child and Family Focus. He oversees the On My Way program in Bucks, Delaware, Chester, Lehigh, and Northampton Counties. He is also the director of High Fidelity Wraparound in Bucks, Delaware, and Montgomery Counties as well as a Family Peer Specialist Navigator program in Delaware County called Delco Contact.
