

The Autism Action Committee in the Lehigh Valley is seeking additional members

In the Lehigh Valley, the Autism Action Committee (established in 2016) is a collaborative group comprised of representatives from Magellan, Lehigh County and Northampton County Departments of Human Services, autism services system stakeholders, and family members. It is vitally important for the committee to expand on a regular basis and to attract those interested to make a difference. Family involvement is critical to provide their perspective and life experiences to help inform and shape the committee's work.

Providers and stakeholders are encouraged to share this information with members and their supports. If you have any questions or would like to reach out to share a suggestion for a future committee member, please email John Lees at jglees@magellanhealth.com.

Check out the event flyer [here](#) to learn more about the committee history, meeting information, and helpful navigation guides created through the leadership of this committee.
